

MAKE AN IMPACT: MENTOR A PROFESSIONAL IMMIGRANT

We need Volunteer Mentors for Professional Immigrants in Information Technology, Engineering, Pharmaceutical and Teaching/Education, Accounting/Finance, etc.

How it works?

It is one mentor by one mentee at a time for total of 24 hours spread in 4 months, flexible time, pace and location.

What is in it for you?

This is an opportunity to exercise leadership and management skills, build network of professional contacts, gain knowledge from international perspective, learn a new culture, advertise expertise and company's commitment to social responsibility during networking sessions and volunteer speaking engagements to various companies.

What is your contribution?

Volunteer Mentors make significant impact and difference in the life of newcomers, our community and Canada as a whole. We need more professional immigrants to help sustain Canada's economic activity and standard of living. According to the study of RBC in 2005(i), Canada will need an additional 2.75 million workers in the next 20 years over and above Statistics Canada's long-term population projections and assumptions on fertility, mortality, aging labour population and net immigration rates. It also states that if immigrant workers were as successful in the Canadian workforce as those born in the country, personal incomes would be about \$13 billion higher each year than at present. Lastly, help save CAD\$3.4 - 4.9 billion per annum, the amount costing the economy on issues of unemployment and underemployment of skilled immigrants (Conference Board of Canada). (i) The Diversity Advantage: A Case for Canada's 21st Century Economy, RBC Financial Group, Oct 2005.

About the Mentoring Partnership Program

The Mentoring Partnership is a collaboration of community and corporate partners (TD Canada, Deloitte, E&Y, Air Canada, etc.) that bring together skilled immigrants and established professionals in occupation-specific mentoring relationships. It is delivered by a coalition of partner organizations in the City of Toronto and the regions of Halton, Peel and York. **Since 2005, the program has achieved 70% employment success rate and 2300 matches in GTA.**

Thank you for all your support and help!
